

LAKEHAVEN UTILITY DISTRICT
King County, Washington

Resolution No. 2009-1146

A **RESOLUTION** of the Board of Commissioners of the Lakehaven Utility District, King County, Washington, adopting water, sewer and street lights rates and superseding Resolution No. 2009-1144.

WHEREAS, pursuant to RCW 57.08.005, 57.08.060 and 57.08.081, the Board of Commissioners is empowered to establish periodic rates for the furnishing of water, sanitary sewer and street light services, and

WHEREAS, in order to ensure that the District will be able to meet the financial requirements for providing reliable water, sewer and street lighting services to its customers, the Board regularly reviews and considers such periodic rates, and

WHEREAS, having reviewed such matters, the Board adopted Resolution No. 2009-1144 establishing water, sewer and street light rates for years 2010 through 2012, and

WHEREAS, believing that a modification to Resolution No. 2009-1144 to clarify the charge for dormant non-residential irrigation meters is appropriate, and

WHEREAS, having determined that that the rates established herein are fair and equitable and will enable the District to meet its financial requirements,

NOW THEREFORE, BE IT RESOLVED as follows:

1. Water Rates - The following rates shall be billed on a bi-monthly basis for water furnished by the District.

	Add	\$.61/lb. for B.O.D.and Suspended Solids in excess of 1,000mg/l	

- D. Commencing with billings transmitted during 2010, the monthly sewer service charge for property within the District with sewage flows treated by the King County Metro system shall include an additional \$1.66 per hundred cubic feet above the District's rates to reflect charges imposed by King County Metro. Commencing with billings transmitted during 2011, the monthly sewer service charge for such properties shall increase by such amount necessary to fully collect the charge imposed by King County Metro for sewer service to the property.
- E. Commencing with billings transmitted during 2010, the monthly sewer service charge for property within the District with sewage flows treated by the Pierce County/Tacoma system, shall include an additional \$0.66 per hundred cubic feet above the District's rates to reflect charges imposed by Pierce County. Commencing with billings transmitted during 2011, the monthly sewer service charge for such properties shall increase by such amount necessary to fully collect the charge imposed by Pierce County for sewer service to the property.
- F. The volume portion of the service charge for residential accounts, is based upon the water meter readings for the months of January, February, March and April, and is recalculated each year. New customers are assigned a usage amount of 800 cubic feet per month (1,600 per 2-month cycle), which is an average usage for a typical household. This figure is adjusted once actual wet months water usage can be determined. New customers wishing not to be assigned this average consumption value shall be entitled to provide verifiable water consumption records from their last prior residence for consideration in establishing the initial volume portion of the service charge. In order to be considered, such information shall be submitted to the District within ten (10) days of establishment of a new sewer account. Existing customers relocating their residence within the District shall automatically retain their existing consumption average for purposes of the volume portion of the service charge.
- G. Commencement of Charges - Monthly charges for sewer service shall commence pursuant to Resolution No. 2007-1100 or any amendment thereto.
3. Street Light Rates - In order that the District shall recover the \$12.00 per month cost of street lights, all properties within a standard street lighting system established by the Lakehaven Utility District shall pay a monthly charge for such service of \$2.00 per month. In circumstances where the street lights serve more, or less, than six lots, then the amount of the monthly charge shall be adjusted such that the District receives an equivalent \$12.00 cost from the properties served thereby. Properties included within a street light system

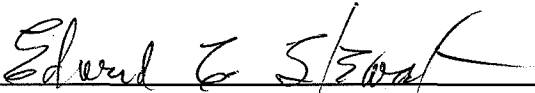

shall continue to be subject to the monthly charge herein until such time as the property shall be determined to be "non-buildable" by the District. In addition to providing proof of the designation of a parcel as "non-buildable" by the land use authority with jurisdiction over the parcel, property owners may submit as such proof the certification from a licensed soils engineer or licensed septic tank design professional that the parcel will not be suitable for service by a septic system.

4. Duplicate Billing - Where a property owner requests that a copy of the water, sewer and/or street light billing be sent to any address other than the account address, a 0.50 dollars charge shall be added to the bill for each such duplicate billing sent.
5. Effective on the date of adoption below, this Resolution shall supersede Resolution No. 2009-1144 and shall apply for billings transmitted after December 31, 2009. The Board reserves its authority to amend this resolution and the rates established herein at any time it deems such amendment to be in the best interests of the District.

ADOPTED by the Board of Commissioners of Lakehaven Utility District, King County, Washington, at an open public meeting thereof held this 22nd day of December, 2009.
