As a Lakehaven wastewater treatment plant operator, you will be part of a team that has been recognized by the National Association of Clean Water Agencies for its environmental stewardship. Our two treatment plants serve a mid-sized metropolitan area of approximately 120,000 people. Operators apply their analytical, math and technical skills to help ensure treated wastewater adheres to EPA standards and safeguards the local ecological system of Puget Sound. If you want to work for an award-winning, innovative utility with competitive pay rates, this is the right opportunity for you.

Our Wastewater Operators perform a variety of tasks at a skilled level in the operation and maintenance of our 10.0 MGD and 5.6 MGD wastewater treatment facilities. Some of the core job responsibilities include;

- Collecting and testing wastewater and sludge samples by using testing equipment and analysis standards,
- Adjusting equipment controls to clarify wastewater and process solids for recycling,
- Inspect machinery and maintain surveillance on operating conditions, gauges, meters, and computerized monitoring systems to ensure continued efficient operations,
- Record and track plant and equipment operational data, and perform regularly scheduled maintenance and upgrades to prevent system breakdowns.
